Gentlemen:

If it is true that Lee Oswald was writing a book critical of Russia then there was only one reason why he should have wanted to return to Russia, which is, to prove Russia ^(FAULTY) guilty of the assassination (murder) of President Kennedy instead of "having the finger" pointed at the Roman Catholic Church.

President Kennedy was a marked man, and he was very friendly with Billie Graham, thus, many others, even like myself, wondered how long he would remain a Roman Catholic. For this one reason, he was murdered by the Roman Catholic Church in order for "her" to keep bragging that "she" finally had one of "her" own in the White House. President Kennedy had to be murdered before he decided to turn his back on the Roman Catholic Church.

Too, President Kennedy refused to dump public

funds into the lap of the Roman Catholic Church, thus, in this respect, he was considered a Bad Catholic.

The above plus more, the truth is I heard. It is yours for asking and asking. Use this letter as you wish.

Sincerely,

(Tia Fitter)

Dear Mrs Curry

In the November issue
of Cosmet Magazine there is an
article entitled "Of Spies and Strangers".
In this article mention is made of
a gun something like a "Colt"
revolver. That is, "noiseless" and "flashless".
I am sure that it was this type of
weapon that was used in the
assassination of Jack Kennedy, and
it was men in the secret service, as
supposed to be in the secret service
who did the shooting.
I hope that you won't get out of

patience with me. I can't help but
feel interested in this thing because of
the effect that it had on the entire
world.

I have always thought that the
Dallas police department hold the
"trump cards" in the case and will
play them at the right time

I have been reading the Warren Report and as I was reading it it says that in the basement of the Police and Courts Building you had an armored car which you were going to use in the transfer of Oswald to the County Jail, but after interviewing Oswald you decided to use a decoy car with 4 policeman in it another car with Oswald in it and the ~~other~~ armored car. If you had a policeman at the Main Street ramp how did Mr Ruby get in with a gun!!! Now what I would like to know is: 1 Why didn't you use the armored car instead of the police car 2 How long was Oswald interviewed for on Sunday 3 What was his reason for having the pistol 4 Where were the policeman to hold back the news media & people 5 How did Mr. Ruby get into the basement with a gun 6 How did Oswald come down into the basement from the third floor. Sir:

I am making a collection of philatelic material related to John F. Kennedy, trying to acquire tributes, reminiscences, and autographs from people connected with Mr. Kennedy's history. May I ask you for your autograph on one of my covers? Would it be possible for you to write a brief remark or statement or tribute to or about John Kennedy, or your relationship to him? I would be most pleased and grateful, as I have a considerable collection of such tributes and auto-

graphs - members of the crew of PT 109, family members, members of Mr. Kennedy's Cabinet and staff, literary figures - and I hope to pass those on to my children as a kind of historical reminder of John Kennedy and the impression he made on us contemporary men.

In any event, thank you very much for your time and for any consideration.

Sirs??????

Happy Anniversary- just 2 days before the celebration down in that city and state of #---876144##0%*A. Are you quite satisfied with the results? You know with all of your money to hire Public Relations experts to change your image of ##_ (I can't bear to say that name of your city & state) with beauty contests for teenagers and such, the stink remains around ##(*-3 for a corrupt, rotten radical- rightNazi-type city that you are.

You don't dismiss my letter as a crank odd ball. I'm very normal, but you are the people to worry about your sanity. When newspapers run their edition with a black border edge the day a president of the U.S.A. is coming to their rotten city of ##*(03 and you consider that normal, then I say let the crazy people of your place out and run the town and take over your police force and then maybe-maybe it will resemble a normal American city.

My only wish is that during the Civil War, you in that horrible place of T#48*% were never admitted in the Union. Keep that silly old flag of yours and wave it all you want. Just keep out of American politics. You are not, and I repeat, not Americans, when you can kill a President like John F. KENNEDY or any President and let your police force not only cover up evidence but also be so clumsy with soup like fuby". In my opinion and many others that have discussed this, your police force stinks to high heaven. There are probably many good men on it, but these poor souls make up the minority and have such a low rank, can say nothing about what goes on if they want to keep their jobs. I have friends that traveled through your rotten city before and have told me the results of their travels.

I have tried to stay unemotional to write this letter but when I think of your police force and how they are such "~~UN~~-Americans, my blood boils over and it's very difficult to sound rational.

Another thing we have been discussing, you down there in that city of Money first, God last, is to stop sending our Missionaries overseas to save the heathens, but to start right in the U.S.A. down in your city & state., starting with the police dept., then the chambers of commerce and ending with the newspapers. (You see I can't even start to abbreviate your local departments.)

Please, oh Please, since your so dead set against anything that is W.A.S.P., leave the U.S.A. since you are not Americans and find another country where you all think alike and just murder each other.

Then we are not losing anything, but we when we have a President like we did with ~~FRANKLIN D. ROOSEVELT~~ and with you people feeling the way you ~~HE~~ do, no normal American is safe in that city & state of yours.

I would not enter that city & state of yours if they paid me to, I might find ~~EX~~ a real neat frame-up for a simple thing like speeding. Why, Mr. Police Commenssioner, do you let money rule you that much? Is it worth it when you think of the day when you leave this earth? Do you want people to say "Boy, he really played his cards close to the chest" or "Now that man never had much, but he's one honest man that I have known" I don't think it would be difficult to choose an epitaph if a person was honest & brave. The one trouble & the main one most people find in texans is their value on material wealth.

They place such store on these tangible products, that everything is secondary, including Presidents and the State of the Union.

You people think that everything that is not White, Anglo-Saxon, Protestant or ~~HE~~ did not come over on the Mayflower is not an

American, but did you ever stop to sthink that the original discover of American is not a W.A.S.P. He beat the Mayflower "yars & yars" so that you people who pride yourselves on being W.A.S.P's are really second ~~XXXX~~ class citizens. If you ~~XXXX~~ think this is a letter from a religious sect, you're sadly mistaken. I have no religion. And after seeing the results from the so-called "Bible Belt" I want no part of religion. But my friends, I am proud to say, are a mixed group, consisting of Protestant, Catholics, Jewish, Orientals, etc. the thing we have in common, is we all think alike about your rotten city. Have all the football games, beauty contests and whatever your Public Relations can think of, we, and many others feel your city is rotten to the core, especially the police dept. and your newspapers, we feel your motto is, "OUR GAINS ARE THE BEST, THE HELL WITH THE REST" By the way, how many high income men from ##### Texas are in the Viet N. War??????????????

Happy Anniversary, please dont celebrate too much. Your don't EX know, but you really did loose the best Presidents you had, unless you feared the Viet N. war would be stopped with him in power/

Dear Sir:

Enclosed you will find copies of the Kennedy poems written by me as a sympathy message from the Manchester, N.H. Police Dept. at the time of President Kennedy's assassination in 1963. It seems fitting and proper that your department should have these copies, also the enclosed poem "The Police Officer" in memory of the officer from your department who lost his life that day in Dallas....Officer Tippit. Since both tragedies took place that same day in your city, I feel that it is fitting and proper that these poems should find their way at last to your city.

I have been a member of the Manchester Police Dept. for the past 19 years. The loss of both lives touched myself and members of this dept. very deeply.

United Press and Associated Press used the Kennedy poems the morning of his funeral. If they did not reach Dallas at that time I thought perhaps you might like to have them.

You may feel free to make what ever use of them you find fitting. Other organizations, police depts. etc. at various places in this country have been given the same permission to make reproductions etc.

Originally they were written for my dept. here, but the dept. sent them out as a teletype sympathy message the morning of November 25, 1963 to other depts.

With best wishes from myself and the Manchester Police Department.

THE POLICE OFFICER

By Donald E. Reinert

There goes a man upon the street
He's known our every prayer
The man that little children greet
With smiles they always share.

He's part of every waking day
He's part of every night
He helps the traveler on his way
He's some one good and right.

Parents knew him long ago
He saw their children born
Now years of care begin to show
He's growing old and worn.

Upon life's busy highway
Where ever he may go
People take the time to say
A friendly word or so.

I often note in passing by
His understanding deeds
His comfort to some childish cry
His answer to their needs.

Some pass him by unless there's strife
As though they didn't care
And take for granted all his life
Till one day he isn't there.

Worded Delays JFK Marker

DALLAS (UPI)—The Dallas Park Board said yesterday it has put off indefinitely plans for a marker at the John F. Kennedy assassination site, because of controversy over how the marker would be worded.

There had been opposition to

plans to have the marker include some facts of Dallas history, such as first steam navigation of the Trinity River, in the same marker that told of the Nov. 22, 1963 assassination of Kennedy.

ETERNAL LIGHT AT ARLINGTON

There echoes in the silence of a late November day
The muffled drums and marching feet that carried him away
To a hillside in Virginia where his flame is burning bright
Where a widow mourns her loved one in the stillness of the night.

So tenderly with flaming torch as if from failing hand
She touched it to eternal light that shone for all the land
Then slowly they departed as their eyes began to fill
And saddened hearts were carried from the grave upon the hill.

The one with ringless finger clutched an emblem of the dead
To face the empty world alone without the man she wed
As tear drops of the mourners fell upon the hillside grave
The martyr was committed to a place among the brave.

In a grave across the river under blue Virginia skies
Under tributes of a nation our youthful leader lies
In the silence of the hour; in the stillness of the night
Go mourners to the hillside where his flame is burning bright.
